

"SCHEDULES OF DAILY ACTIVITIES"-----Rokko Branch E.S.S.

1959 Second Half Term -

591001-AC
デイリー・アクティビティ
(1959年後期六甲会)

General Principles of Daily Activities:

- 1) Every member should pay attention to daily activities, suggesting new ideas and criticizing the schedule decided.
"Co-operation" is vitally necessary.
- 2) Every member should try to gather at Room 319 as early as possible at luncheon recess. Usually Room 319 is used for our daily activities.
- 3) Every member should keep the rule that only English is allowed in the Room above.
- 4) The schedule is subject to change according to the circumstances.

Explanation of the Schedule:

Group Study-----This study has the purpose of giving as many chances as possible for all the members to speak in English. Each group consists of about 6 members and decides what to study beforehand. According to the decision, each group carries on the study.
Each group must select the committee who manages the meeting.

Special Study-----Each member takes up one adequate topic and explains it to the audience. Sometimes, the introduction of seminars will be added. Each member is ~~also~~ qualified to have the chance at least once in the term.

Free-Talking-----In this study, members can speak freely in English, taking up interesting topics. Weather permitting, this activity will be carried on the lawn in school campus. Keep in mind that this activity is among regular and important ones.

Discussion-----In this activity, we discuss rather easy subjects because of the shortage of time. As we have no time to discuss the subjects, committee will show the subject for discussion on the spot. But every member has the qualification to give the committee adequate and suitable subjects everytime.

Mon. Group study	Tues. Group study	Wed. Free-talking
Thur. Special study	Fri. Discussion	Satur. Exceptional case

Note: Informations will be made just at the beginning of luncheon activity, and each department will announce them on the bulletin board, if necessary.

Department of Daily Activity.
